

**AMENDMENTS TO THE CLAIMS**

**Listing of the Claims:**

Following is a listing of all claims in the present application, which listing supersedes all previously presented claims:

23. (Currently Amended) An Internet information displaying method for receiving internet information, displaying it on the screen, and displaying a tool bar composed of plural buttons each representing control function on the screen, comprising steps of:

selecting an arbitrary button in said tool bar; and  
magnifying only said selected button into a predetermined size in longitudinal and lateral directions and displaying said selected, magnified button.

24. (Original) The Internet information displaying method as set forth in claim 23, wherein the displaying state of the selected button is magnified in the direction toward the center of the screen at said step of magnifying and displaying said selected button.

25. (Original) The Internet information displaying method as set forth in claim 23, wherein characters for expressing the function of the button are also displayed at said step of magnifying and displaying said selected button.

26. (Original) The Internet information displaying method as set forth is claim 23, further comprising step of varying the displaying state of said magnified and displayed button when executing the function of said selected button.

27. (Original) The Internet information displaying method as set forth in claim 26, wherein said selected button is displayed in a depressed state from the screen at the step of varying the displaying state of said magnified and displayed button when executing the function of said selected button.

28. (Previously Presented) A method as recited in Claim 23, wherein said step of selecting an arbitrary button to be the selected button in the tool bar comprises selecting said arbitrary button with a wireless remote control.

29. (Currently Amended) An Internet information displaying method for receiving Internet information, displaying it on the screen, and displaying a tool bar composed of plural buttons each representing control function on the screen, comprising the steps of:  
selecting, by a remote control, an arbitrary button in said tool bar; and  
magnifying only said selected button into a predetermined size in longitudinal and lateral directions and displaying said selected, magnified button.

30. (Currently Amended) An Internet information displaying method for receiving Internet information, displaying it on the screen, and displaying a tool bar composed of plural buttons each representing control function on the screen, comprising the steps of:  
selecting an arbitrary button in said tool bar; and  
magnifying<sub>1</sub> in longitudinal and lateral directions<sub>1</sub> and displaying the selected button upon a single user action.

31. (Previously Presented) The Internet information displaying method as set forth in claim 30, wherein the displaying state of the selected button is magnified and moved in the direction toward the center of the screen at said step of magnifying and displaying said selected button.
